

## 2000nm Polarization-maintaining Coupler

### Features

High return loss  
Low insertion loss  
High stability and reliability

### Application

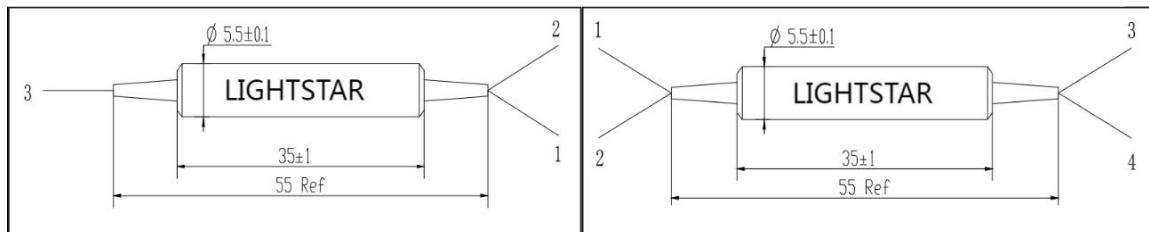

Optical fiber amplifier  
Optical fiber sensing  
Fiber laser

### Specifications

| Parameter                                 | Unit | Value   |     |
|---|------|---|-----|
| Port type                                 |      | 1x2   | 2x2 |
| Central wavelength                        | nm   | 2000  |     |
| Bandwidth                                 | nm   | $\pm 50$  |     |
| Additional losses                         | dB   | 1.2   | 1.5 |
| Uniformity(only for 50/50)                | dB   | 0.8   | 1.0 |
| Splitting ratio (Port 2/4)                |      | $1\pm 0.3\%$ , $2\pm 0.6\%$ , $5\pm 1.2\%$ , 10%, and 50% |     |
| Minimum return loss                       | dB   | 50  |     |
| Minimum extinction ratio(only for F type) | dB   | 20  | 18  |
| Minimum extinction ratio(only for B type) | dB   | 18  | 16  |
| Power(CW)                                 | mW   | 500 (only for Splitter)                                   |     |
| Maximum tensile load                      | N    | 5   |     |
| Fiber type                                |      | PM 1550 or PM 1950 Fiber on Port 1 & Port 3               |     |
| Operating temperature                     | °C   | -5 to +70   |     |
| Storage temperature                       | °C   | -40 to +85  |     |

When using the Connector, the processing power is only 1W, the Insertion loss is 0.3dB higher, the return loss is 5dB lower, and the extinction ratio is 2dB lower. The Connector key is aligned with the slow axis.
